About Long Island Reach

A community based, multi-service agency providing rehabilitative and treatment services to youth and their families of Nassau County. Long Island Reach is committed to working with a high-risk population of community residents of all ages and their families to engage and help them learn better ways to cope with their rage, depression and pain; to enhance self-esteem and develop self-awareness and to help seek creative alternatives to self-destructive drug and alcohol abuse, aberrant and anti-social behavior.
